

# Regulator Systems

MANUFACTURER OF AIR CONDITIONING CONTROLS AND INSTRUMENTATION

## TP2000 / TP4000 TEMPERATURE PROBE

### DESCRIPTION

The TP2000 and TP4000 Temperature Probe is designed to be installed in air conditioning ductwork or in pipework with the WEL101 Thermowell. The standard 20mm conduit entry in the terminal box simplifies the electrical installation. The TP4000 is for use in averaging situations.

### TECHNICAL DATA

Insertion Length	200mm
Resistance	- TP2000 2000 ohms @ 25°C
Resistance	- TP4000 4000 ohms @ 25°C
Accuracy	± 0.3°C over 0-70°C
Max. connecting cable	1000m 1.0mm <sup>2</sup> Cu
Measuring Range	-50 to 110°C

### MOUNTING DETAILS / DIMENSIONS
