

SERVICE PLEAT

Pleated Filter Inserts

Description

Airepure Service Pleats are replaceable pleated filter inserts with a metal backing designed to fit reusable universal "U" channel holding frames.

Service Pleat filters are suitable for variable air volume systems. Operating face velocity ranges are from 0 to 2.54 m/sec face velocity and can be used in most heating, air conditioning, or ventilating systems.

Service Pleats are available in nominal 50mm and 100mm depths, are rated as a high MERV 8 per ASHRAE 52.2-99.

Service Pleats are suitable as a primary filter to meet AS 1668. They may be used as pre-filters to extend the life of AirePak, PurePak, PureCell and AireFlow-V filters in these framing systems.

Features

- 100% Continuous hydrophobic polyolefin fibres coupled with proprietary electrostatic treating technology
- Continuous fibres to prevent fibre shredding
- Media maximising V-Pleat design
- Expanded metal grid prevents media flutter while in operation
- MERV 8/9 (G4/F5) Rating as per ASHRAE 52.2
- Available in all the standard sizes
