

# Bronco Pipe Saddles

## BRONCO PIPE SADDLES

**MM Kembla Bronco Pipe Saddles** are an innovative, simpler and better way to install piping systems. Its design and construction provides optimal support for insulated tube & pipe.

### INNOVATION

The single piece Bronco Pipe Saddle means that no assembly or tools are required. The unique design fits perfectly into the anchor channel of any depth. The plastic legs snap into the channel with the external stability tabs further securing the saddle in place.

The Bronco Pipe Saddle eliminates common installation problems associated with insulated tubes like damage (tearing) or compression of the insulation leading to compromise of the thermal barrier and displacement of pipe that can lead to piping system leaks.

### FEATURES

- Fast, clean and easy installation - no assembly or tools required
- Fits perfectly on any anchor channel depth
- Enhanced lip design prevents insulation crushing and tearing from pipe movement
- External stability tabs with grooved slot feature for optional self-tapping screw
- Moulded from high strength polypropylene copolymer
- Excellent finished appearance
- Available from 2 ¼ to 8 ¼ OD

### TECHNICAL SPECIFICATIONS

- Meets the UL Classified 2043 Flame/Spread Smoke Index for use in air handling systems
- UV resistant
- Available from 2 ¼ to 8 ¼ OD

Easy snap on design for channels

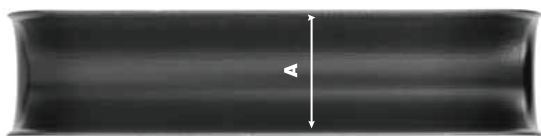

Perfect for insulated tube

## SIZE & APPLICATION GUIDE

The most common applications for the Bronco Pipe Saddle are piping systems used in Refrigeration, Air Conditioning, Plumbing & Mechanical services.

Insulation ID		Insulation Thickness					
inch	mm	9mm	13mm	19mm	25mm	32mm	38mm
