

HONEYWELL WI-FI 9000

CONTROL AT YOUR FINGERTIPS

Internet enabled technology providing the opportunity for retrofit sales and future maintenance business.

Quick Tips for Contractors

- Generate repeat business by importing your contact details to the customer's app & receive maintenance reminders
- System and filter maintenance alerts via email
- View and set schedules remotely
- Customisable holiday override to preset business specific holiday dates
- Direct replacement for conventional thermostats
- Tool-free terminal block for faster install with easy on-screen setup
- Security settings with keypad lockout.

Energy Saving

Choose programmable mode to save annual heating & cooling costs.

Customisable Display

Easily change the high-definition display to any colour.

On-Screen Comfort Information

See indoor & outdoor temperature information from the home screen.

Internet Time-Sync

Keeps time during power failure & automatically updates for daylight savings.

Remote Access

Monitor & manage comfort & energy usage anywhere, anytime from your smartphone.

Smartphone Application

Download the app for smartphone connectivity.

4.9 Million connected thermostats were sold in 2015, expected to **quadruple** by 2021
