### **IAQ PRO INDOOR AIR QUALITY METER**

- Generate Revenue
- Made for the Professional Technician
- Measure particulate matter at PM 2.5 and PM 10
- Detects the presence of Volatile Organic Compounds and Carbon Dioxide
- Measures Volatile Organic Compounds and Carbon Dioxide
- Measures indoor air temperature, relative humidity & atmospheric pressure
- It will provide diagnostic reports and solution recommendations via email in report format direct from site via the CPS Link App

### **ABM-HOOD-200 AIRFLOW CAPTURE HOOD**

- An ideal easy to use proportional balancing hood
- Utilises the ABM-200 environmental meter
- The unit comes with the meter, hood, 600x 600 expansion hood, airflow straightener, low airflow adaptor and protective storage carry case
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **ABM-200 AIRFLOW & ENVIRONMENTAL METER**

- Wireless Bluetooth Smartphone Anemometer - Measures Volume, Velocity, Temperature, Dry Bulb/Wet Bulb, Humidity, Pressure, Air Density, and Outdoor Conditions
- Automatically calculates volume
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **ABM-100 AIRFLOW METER**

- Smartphone Anemometer - Measures Volume & Velocity
- Automatically calculates volume
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **SPM-K1 STATIC PRESSURE METER & PROBE KIT**

- Provides accurate readings for Indoor / Outdoor Pressure, Gas Pressure, Static Pressure, Pressure Differential and System External Static Pressure
- Stainless probes with magnetic colour coded base
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **TS-100 / TS-100-6PK TEMPERATURE & HUMIDITY DATA LOGGER**

- Measure and record temperature and humidity conditions
- Deploy and name up to 6 Data Loggers at once
- Operational Temperature Range -8c to +70c
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **TR650W SERIES WIRELESS RECOVERY MACHINES**

- Quickest recovery rate in its class (R410A recovery rate 4.6kg/min Direct Liquid)
- Brushless DC Motor, ignition proof, compact size
- Lightweight 8.8kg, 2 cylinder truly oil-less 1hp design
- Suitable for most refrigerants including A2L's
- Will link in with our CPS Link app. for operational alarming, speed ramping, usage monitoring, service recommendations and more

### **VP15W WIRELESS VACUUM PUMP**

- 361 LPM capacity, compact and light weight design 11.7kgs
- Brushless DC motor, ignition proof, compact size
- Suitable for most refrigerants including A2L's
- Will connect wirelessly with our CPS Link app. for operational alarming, speed ramping, usage monitoring, service recommendations and more

### **CC220EW WIRELESS SCALE**

- Operates via the CPS Link App, or standalone via the wired handset
- Pair to the CPS SVW wireless solenoid valve for automatic, precise control of refrigerant during service routines
- 100kg Compact Refrigerant Scale. 22.3cm square platform
- Accurate to 0.015% of Reading

### **SVW WIRELESS SOLENOID VALVE**

- Nitrogen purging capability (regulated)
- The SVW is a compact, battery operated solenoid valve with 1/4" SAE IN/OUT male ports
- Compatible with all common CFC, HFC, HCFC refrigerants and blends
- Operate manually or via the CPS Link app

### **VG200W WIRELESS VACUUM GAUGE**

- The VG200W may be used as a standalone gauge, or it may be paired with a mobile device using the CPS Link app
- Accuracy is +/- 10% of reading
- Set Low & High Alarms, Real Time Vacuum Analytics
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **PT200W WIRELESS PRESSURE, TEMPERATURE GAUGE**

- Like a Set of Gauges you can keep in Your Pocket
- Accurately measure and calculate HVAC/R data such as Pressure, SuperHeat, SubCool, pressure hold testing, temperature differential (tH-tL) and temperature averaging
- Data logging capabilities as the memory is held on the device
- Use the PT200W as a stand-alone gauge or pair with a mobile device via the CPS Link app
- The PT200W holds memory on the device so it has data logging capabilities
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **VOLT-100 WIRELESS CLAMP METER**

- REAL TIME RUN COST - Calculates actual cost per hour to operate appliances
- Power factoring to determine true power consumption
- Data logging of electrical readings
- Measures Inrush
- Data can be easily saved onsite and sent via email in report format direct from site via the CPS Link App

### **MD100WVHE & MD50WVHE BLACK MAX DIGITAL WIRELESS MANIFOLD – 4 OR 2 VALVE**

- BlackMax® Digital Wireless Manifolds can be used as conventional manifolds or connect wirelessly with any mobile device using the CPS Manifold Link™ app
- Perform and monitor full system measurements. Data logging. Real-time information displayed on screen. Perform multiple system tests, Pressure hold or vacuum hold tests can be viewed, saved, stored or emailed as a graph
- Supports 120 of the most common refrigerants, with quick access to your favourite five
- APP updates for new refrigerants
