GTF220NR

CO₂ GAS ALARM - DETECTOR

A self contained 24 V dc powered carbon dioxide gas detector.

Features

- Heavy Duty die-cast alloy metal case
- Suitable for Car Parks
- IP65 rating
- Detects gas levels 0 to 10,000 PPM
- Displays alarms by LED and a loud buzzer
- 3 programmable alarm levels
- 1 X Output Relay to control ventilation

Applications: pubs, clubs, hotel cellars,
car parks, CO₂ systems

AZ7729

CO₂ DISPLAY MONITOR & ALARM

WITH TEMPERATURE AND HUMIDITY

Room Ventilation has become more critical than ever during the COVID-19 pandemic. This CO₂ monitor detects the carbon dioxide present in the room.

Features

- Real Time CO₂ monitoring with audible alarm
- NDIR CO₂ sensor with self calibration system
- 10 year lifetime of CO₂ sensor
- Temperature and Humidity monitoring
- Three colour LCD backlit indicating CO₂ quality (green, yellow, red)
- 1 X Output Relay to control ventilation

Applications: retail, restaurants, offices,
hospitals, nursing homes, schools
