YEAR
WARRANTY

The Gree reverse cycle RV air conditioner is specifically designed for RV's and built for harsh Australian climates. Innovative, stylish, robust build, ultra low profile, and super quiet operation. For those who enjoy travelling off the grid, the Gree air conditioner features a low 1 Watt standby function, and will start and run using only a 1kVA (1 horse power) petrol generator.

The 2.5kW model is perfect to fit smaller caravans where 3.0kW or higher RVAC's are not suited or where large RV's may require 2 units. It requires a lower kVA startup and running input, resulting in lower running costs. The interior plenum features oscillating front & rear airflow vents to ensure the temperature in your caravan remains consistent at all times.

The 3.5kW model is built with smart Wi-Fi control capabilities and App control so you can control the air conditioner with your smart-phone or tablet at any time, from any location with an internet connection. It also features an extra slim interior plenum which adds an elegant look to your caravan.

Features

- AES weatherproof material against UV radiation
- Reverse cycle climate control
- Extremely quiet operation (37dB)
- Protection: Low Freon, compressor overload, low voltage, anti-freeze, and more
- Dehumidifying function
- Eco-friendly R410A refrigerant
- 24 Hour programmable on/off timer
- Operating temperatures: 2°C to 43°C
- Outdoor Unit Size: 1018(L) x 650(W) x 259(H) mm
- Cut Out Size: 356 x 356 mm
- Power supply: 240V, 50Hz

2.5kW Cooling / 2.2kW Heating

GRH085DA-K3NA1A

- Interior plenum with oscillating front & rear airflow vents
- Central airflow vent with directional selector
- Built in LED lighting
- Low standby power of < 2W
- Capacity cooling / heating: 2.5kW / 2.2kW
- Cooling / Heating power input: 1.07kW / 0.98kW
- Air flow volume (SS/H/M/L): 340/280/220/190 m³/h
- Plenum Size: 667(L) x 497(W) x 69(H) mm
- Plenum Weight: 5kg
- Outdoor Unit Weight: 41kg

3.5kW Cooling / 3.2kW Heating

GRH120DAK3NA2B

- Wi-Fi connectivity - GREE+ App Control
- Front and rear manual-controlled airflow vent
- Built in Halo LED lighting on plenum
- Low standby power of < 1W
- Capacity cooling / heating: 3.5kW / 3.2kW
- Cooling / Heating power input: 1.27kW / 1.07kW
- Air flow volume (SS/H/M/L): 340/260/220/130 m³/h
- Plenum Size: 610(L) x 485(W) x 49(H) mm
- Plenum Weight: 3kg
- Outdoor Unit Weight: 42.5kg
- Supports iOS 7.0 / Android 4.4 or above

Gree commercial standard terms of trade apply. Smart phone not included.
