

## SKY BROWN TIP BRAZING ALLOY

**Manufactured to:** AS 1167.1-2005

**Material:** Silver, Phosphorus, Copper, and Proprietary Compounds.

**Performance:** 15% Equivalent

After years of R&D and field trials, Sky Brown Tip ® - sold in the USA as Dynaflow ® - has become the accepted norm in today's market, which include Coles supermarkets in Australia. Harris have been able to not only mimic the performance, flow and usability of 15% silver solder, but create a stronger, more fatigue resistant joint, with Sky Brown Tip ®. Test results to support this are available on request.

Manufactured for the Australian market in 2.4mm round rods that are 900mm long to reduce wastage and increase OEM's productivity.

The Harris Products Group is a wholly owned subsidiary of The Lincoln Electric Company; the world leader in the design, development and manufacture of welding products, robotic welding systems, plasma and oxyfuel cutting equipment.

Brazing alloys also available in 2%, 5%, and 45% (equivalents).
